Checklist – Special Flight Permits, Permissible Unserviceabilities, Exemptions, Variations and Exclusions

Applicant's Name: _____ **Job Number:** _____

Section 7.7.5.8 of the Air Operator Certification Manual (AOCM) sets out the requirements for CASA to be satisfied that under the Act and regulations, an operator's responsibilities are met in relation to managing the operator's involvement in Special Flight Permits, Permissible Unserviceabilities, Exemptions, Variations and Exclusions.

The Assessing Officer shall identity each element that has been assessed and considered satisfactory. Where an element is not applicable (N/A), the reasons for the element being N/A must be recorded in the 'Comments' section of this checklist.

Note: Each element must contain written procedures appropriate to the nature of the operation and complexity of the organisation.
