

## INDEX TO CIVIL AVIATION REGULATIONS 1998 (CAR 1998)

Regulation No.

### AAA

#### ACROBATIC CATEGORY

*See: Normal, Utility, Acrobatic or Commuter Category*

#### ADMINISTRATIVE ARRANGEMENTS

commencement	1.002
name of regulations	1.001
status of notes	1.007

#### AIRWORTHINESS DIRECTIVES

Action to be taken by CASA on receiving request under regulation 39.6	39.007
Aircraft etc covered by AD	39.002
Aircraft etc excluded from operation of AD because unsafe condition has ceased to exist	39.005
Aircraft etc excluded from operation of AD on adoption of alternative method for correcting unsafe condition	39.004
Australian aircraft covered by AD etc not to be operated	39.003
CASA may issue airworthiness directives	39.001
Request for review of operation of AD	39.006

#### AIRWORTHINESS STANDARDS

aircraft engines	33.001
engines for very light aeroplanes	32.001
helicopters in normal category	27.001
intermediate category	26.001
manned free balloons	31.001
normal, utility, acrobatic and commuter category	23.001
primary category	26.001
propellers	35.001
rotorcraft in transport category	29.001
sailplanes and powered sailplanes	22.001
transport category	25.001

#### APPLIANCES

*See: Materials, Parts, Processes and Appliances*

#### APPLICATION FOR

provisional type certificate	21.075
type certificate	21.015

#### AUSTRALIAN TECHNICAL STANDARD ORDER AUTHORISATIONS (ATSO)

applicability	21.601
applications and issue	21.605
design changes	21.611
deviation, approval for	21.609
duration	21.621
general rules	21.607
inspection by CASA	21.615
issue of letters of design approval: import appliances	21.617
marking and privileges	21.603
non-compliance	21.619
record keeping requirements	21.613
transferability	21.621

<b>AUTHORISED FLIGHT</b>	
without certificate of airworthiness	200.020
<b>AUTHORISED PERSONS</b>	
appointment of	201.001
<b>BBB</b>	
<b>BALLOONS</b>	
airworthiness standards, manned free	31.001
heater assembly must carry identification	21.830
incidental provisions, manned free	31.02
manufacturer's data plate must be attached to basket	21.835
tethered: exemption	200.005
unmanned free: exemption	200.006
<b>CCC</b>	
<b>CANCELLATION</b>	
foreign supplemental type certificate	21.119
of instrument at request of holder	21.002E
or suspension of instrument	21.002C
provisional type certificate	21.078
supplemental type certificate	21.118
type certificates and type acceptance certificates	21.051
<b>CAO 95.55 AEROPLANES</b>	
exemption	200.014
<b>CASA</b>	
delegation of powers	201.002
not liable in certain cases	201.003
<b>CERTIFICATES OF AIRWORTHINESS</b>	
applicability	21.171
authorised flight without	200.020
classification of	21.175
delegation option authorisation	21.273
duration of	21.181
eligibility	21.173
experimental certificates	21.191
aircraft to be used for market survey, sales, demonstrations and customer crew training	21.195
duration of	21.195B
eligibility	21.192
general	21.193
issue of	21.195A
issue of	21.176
multiple category	21.187
restricted category aircraft	21.185
special certificates for amateur-built under ABAA	21.190
special certificates for intermediate category	21.184A
special certificates for limited category	21.189

special certificates for primary category	21.184
standard certificates	21.183
special flight permits	21.197
applications for	21.199
duration of	21.201
issue of	21.200
transitional provisions	202.052
transferability	21.179
See also: <i>Provisional Certificates of Airworthiness</i>	
<b>CERTIFICATION</b>	
applicability	21.001
falsification of applications, reports or records	21.002
requests for information	21.002A
applicants to be told decisions	21.002B
<b>COMMUTER CATEGORY</b>	
See: <i>Normal, Utility, Acrobatic or Commuter Category</i>	
<b>DDD</b>	
<b>DECISIONS</b>	
applicants to be told about	21.002B
review of	201.004
<b>DEFECTS</b>	
reporting of	21.003
<b>DEFENCE FORCE</b>	
aircraft operated by civilian crew: exemption	200.008
military aircraft undergoing production or acceptance flight testing: exemption	200.010
<b>DEFINITIONS</b>	
the dictionary etc	1.004
<b>DELEGATION</b>	
CASA's powers	201.002
<b>DELEGATION OPTION AUTHORISATION</b>	
airworthiness tag/release notes – criteria for issue	21.271
applicability	21.231
application	21.235
certificates of airworthiness	21.273
data review and service experience	21.277
duration of	21.143
eligibility	21.239
equivalent safety provisions	21.261
experimental certificates	21.275
export airworthiness approvals	21.269
inspections	21.249
maintenance of eligibility	21.245
major repairs, rebuilding and alteration	21.289
production certificates	21.267
records to be kept by manufacturer	21.293
transferability	21.247
type certificate	
application for	21.253
issue	21.257
use of	21.251

**DOCUMENTS**

availability of 1.006

**DURATION**

ATSO authorisations 21.621  
 certificates of airworthiness 21.181  
 delegation option authorisation 21.243  
 experimental certificates of airworthiness 21.195B  
 foreign supplemental type certificate 21.119  
 production certificates 21.159  
 provisional certificates of airworthiness 21.217  
 provisional type certificate 21.077  
 special flight permits 21.201  
 supplemental type certificate 21.118  
 type certificates and type acceptance certificates 21.051

**EEE**

**ENGINES**

aircraft engines  
     airworthiness standards 33.001  
     approvals under FAR Part 33 33.004  
     changes to FAR Part 33 33.003  
     incidental provisions 33.002  
 manufacturers data plate to be attached 21.835  
 very light aeroplanes  
     airworthiness standards 32.001  
     approvals under JAR-22 32.004  
     changes to JAR-22 32.003  
     incidental provisions 32.002

**EXEMPTIONS**

CAO 95.55 aeroplanes 200.014  
 Defence Force aircraft operated by civilian crew 200.008  
 exhibition aircraft - aircraft markings 45.130  
 from obligation to mark parts 21.870  
 from requirement of airworthiness directive - transitional 202.172  
 gyroplanes  
     single place, empty weight not over 250 kg 200.003  
     two-place, empty weight not over 300 kg 200.004  
 hang gliders 200.001  
 military aircraft undergoing production or acceptance flight testing 200.010  
 model aircraft, untethered, flown out of doors 200.009  
 parachutes, powered 200.013  
 tethered balloons, kites parasails and gyrogliders 200.005  
 ultralights: privately built single-place 200.002  
 unmanned aircraft and rockets – from certain provisions of CAR 1998 101.040, 101.020  
 unmanned free balloons 200.006  
 weight shift controlled aeroplanes 200.013

**EXPORT AIRWORTHINESS APPROVALS**

aircraft	21.339
applicability	21.321
application for	21.327
eligibility	21.323
inspections and overhauls	21.337
issue of	21.324
for Class I products	21.329
for Class II products	21.331
for Class III products	21.333
kinds of approvals	21.325

**FFF****FAILURES**

reporting of

**FALSIFICATION**

of applications, reports and records relating to certification and airworthiness requirements	21.002
---	--------

**FARS**

harmonisation with	1.003
--------------------	-------

**FIREWORK DISPLAYS — see also *Unmanned Aircraft and Rockets***

certain projectiles prohibited	101.490
application of State and Territory laws	101.480
meaning of operate a firework display	101.485
not permitted near aerodromes	101.495
notice to CASA of certain firework displays	101.500

**FLIGHT MANUAL**

aeroplane or rotorcraft	21.005
-------------------------	--------

**FLIGHT TESTS**

instrument calibration and correction report	21.039
pilot for type certificates	21.037
type certificates	21.035

**FOREIGN COUNTRIES**

recognised countries	21.012
----------------------	--------

**GGG****GYROGLIDERS**

exemption	200.005
-----------	---------

**GYROPLANES**

exemptions	
single-place with empty weight not over 250 kg	200.003
two-place with empty weight not over 300 kg	200.004

**HHH****HANG GLIDERS**

exemption	200.001
-----------	---------

**HELICOPTERS**

See *Rotorcraft*

**HELICOPTERS IN NORMAL CATEGORY**

airworthiness standards	27.001
approvals under FAR Part 27	27.004
changes to FAR Part 27	27.003
incidental provisions	27.002

**III**

**IDENTIFICATION OF AIRCRAFT AND AERONAUTICAL PRODUCTS [Subpart 21.Q](#)**

aircraft propellers, blades and hubs must carry identification marks	21.840
critical parts	
identification	21.845
removal or alteration of identification	21.855
exemption from obligation to mark	21.870
heater assembly of manned free balloon must carry identification mark	21.830
identification of parts	21.865
manufacturer's data plate	
must be attached to aircraft	21.820
must be attached to aircraft engine	21.835
must be attached to manned free balloon	21.825
meaning of <i>fireproof</i>	21.810

**IMPORTED**

aircraft engines and propellers, approval of	21.500
other aircraft engines and propellers	21.500A
issue of letters of ATSO design approval: import appliances	21.617
materials parts and appliances	21.502
other materials, parts and appliances	21.502A

**INFORMATION**

requests for	21.002A
--------------	---------

**INSPECTION**

type certificates	21.033
-------------------	--------

**INSTRUMENT**

cancellation or suspension of	21.002C
cancellation at request of holder	21.002E

**INTERMEDIATE CATEGORY**

airworthiness standards	26.001
incidental provisions	26.002

**JJJ**

**JARs**

definition of	Dictionary
---------------	------------

**KKK**

**KITES**

exemption	200.005
-----------	---------

**LLL****LIABILITY**

- CASA and Commonwealth not liable in certain cases 201.3

**MMM****MALFUNCTIONS**

- reporting of 21.003

**MANNED FREE BALLOONS:** *See Balloons***MANUFACTURER**

- location of manufacturing facilities 21.137  
 records to be kept (delegation option authorisation) 21.293  
 records to be kept (production under type certificate) 21.130A

**MATERIALS, PARTS, PROCESSES AND APPLIANCES**

- applicability 21.301  
 approvals of 21.305  
 approvals of – not covered by regulation 21.395 21.305A  
 approvals imported materials etc 21.502  
     other imported materials etc 21.502A  
 identification of aircraft and aeronautical products Subpart 21.Q  
 replacement and modification parts 21.303  
 use of standard parts and materials

**MATERIALS REVIEW BOARD**

- production certificates 21.145  
 production inspection system 21.125

**MILITARY AIRCRAFT**

- exemption: undergoing production or acceptance flight testing 200.010

**MODEL AIRCRAFT**

- definitions 101.380  
 displays 101.410  
 exemption: untethered, flown out of doors 200.009  
 giant model aircraft 101.405  
 keeping away from people 101.395  
 operating at night 101.390  
 operation outside approved areas 101.400  
 visibility for operation 101.385

**NNN****NATIONALITY AND REGISTRATION MARKS AND AIRCRAFT****REGISTRATION IDENTIFICATION PLATES**

- aircraft registration identification plate 45.140  
     attachment to another aircraft 45.160  
     how and where to be attached to aircraft 45.150  
     must carry aircraft registration identification plate 45.145  
     removal or alteration of aircraft registration identification plate 45.155  
 aircraft with special configuration 45.105  
 antique, experimental and ex-military aircraft 45.100

Application to unmanned aircraft and rockets	101.015
Australian aircraft used by Defence Force	45.110
Australian nationality mark	45.015
exemption of exhibition aircraft	45.130
exhibition aircraft	45.095
how markings to be marked on aircraft	45.085
markings not to be obscured	45.040
marks to be on foreign registered aircraft in Australian territory	45.170
meaning of character	45.030
meaning of <i>markings</i> and <i>set of markings</i>	45.025
minimum height of characters	45.065
minimum spacing of characters	45.080
minimum width of characters	45.070
no confusing markings to be on aircraft	45.090
number and location of sets of markings-	
airships	45.055
fixed-wing aircraft	45.045
manned balloons	45.060
rotorcraft	45.050
registration mark	45.020
removal of markings from sold aircraft	45.115
requirement for aircraft to bear its markings	45.035
requirement to bear certain words	45.125
size of hyphens	45.075
<b>NORMAL, UTILITY, ACROBATIC OR COMMUTER CATEGORY</b>	
airworthiness standards	23.001
approvals under	
FAR Part 23	23.006
JAR-VLA	23.007
JAR-23	23.008
changes to	
FAR Part 23	23.003
JAR-VLA	23.004
JAR-23	23.005
incidental provisions	23.002

<b>PARASAILS</b>	
exemption	200.005

**PARTS**

See: *Materials, Parts, Processes and Appliances*

**POWERED SAILPLANES**

See: *Sailplanes*

**PRIMARY CATEGORY**

airworthiness standards	26.001
incidental provisions	26.002

**PROCESSES**

See: *Materials, Parts, Processes and Appliances*

**PRODUCTION**

aircraft tests: production under type certificate only	21.127
engine tests: production under type certificate only	21.128
inspection system: Materials Review Board	21.125
under type certificate	21.123
variable pitch propeller tests: production under type certificate only	21.129

See also: *Production Certificates*

**PRODUCTION CERTIFICATES**

amendment to	21.153
applicability	21.131
display	21.161
duration	21.159
eligibility	21.133
entitlement, requirements for	21.135
inspection and tests	21.157
issue of	21.134
manufacturing facilities, location of	21.137
Materials Review Board	21.145
multiple products	21.149
privileges	21.163
production inspection system	21.144
production limitation record	21.151
quality system	21.149
data requirements, prime manufacturer	21.143
changes to	21.147
records to be kept	21.166
responsibility of holder	21.165
tests and inspection	21.157
transferability	21.155

**PROPELLERS**

airworthiness standards	35.001
approvals under FAR Part 35	35.004
changes under FAR Part 35	35.003
incidental provisions	35.002

**PROVISIONAL CERTIFICATES OF AIRWORTHINESS**

applicability	21.211
application	21.215
Class I certificates	21.221
Class II certificates	21.223
duration of	21.217
corresponding with provisional amendments to type certificate	21.225
eligibility	21.213
issue of	21.216
transferability	21.219

**PROVISIONAL TYPE CERTIFICATES**

applicability	21.071
application	21.075
cancellation	21.078
duration	21.077
eligibility	21.073
issue of	21.076
requirements for issue and amendment of Class I provisional type certificate	21.081
requirements for issue and amendment of Class II provisional type certificate	21.083
suspension	21.078
transferability	21.079

**QQQ**

**RRR**

<b>RECOGNISED FOREIGN COUNTRIES</b>	21.012
-------------------------------------	--------

**REPORTING**

failures malfunctions, defects	21.003
--------------------------------	--------

**REVIEW**

decisions	201.004
request for review of operation of AD	39.006

**ROCKETS — *See also Unmanned Aircraft and Rockets***

application of State and Territory laws	101.420
definitions	101.425
dropping or discharging things	101.460
high power rockets	101.450
launching	
in controlled airspace	101.435
in or over prohibited or restricted area	101.430
near aerodromes	101.440
permission to launch near aerodrome	101.445
maximum operating height	101.455
model rockets	101.470
weather and day limitations – other than model rockets	101.465

**ROTORCRAFT IN TRANSPORT CATEGORY**

airworthiness standards	29.001
approvals under FAR Part 29	
changes to FAR Part 29	
incidental provisions	29.002

**SSS**

**SAILPLANES**

airworthiness standards	22.001
approvals under	
BCAR	22.007
Germany	22.008
JAR	22.006
OSTIV airworthiness standards	22.009
changes	
BCAR	22.004
Germany	22.005
JAR	22.003
incidental provisions	22.002

<b>SPECIAL FLIGHT PERMITS</b>	21.197
application for	21.199
duration of	21.201
issue of	21.200
<b>SUPPLEMENTAL TYPE CERTIFICATES</b>	
applicability	21.111
applicable requirements	21.115
cancellation of	21.118
duration of	21.118
eligibility	21.113
entitlement to	21.117
foreign supplemental type certificates	21.114
duration, suspension, cancellation	21.119
issue of	21.113A
suspension of	21.118
<b>SUSPENSION</b>	
foreign supplemental type certificate	21.119
or cancellation of instrument	21.002C
provisional type certificate	21.078
supplemental type certificate	21.118
type certificates and type acceptance certificates	21.051
<b>TTT</b>	
<b>TESTS</b>	
aircraft: production under type certificate only	21.127
engine: production under type certificate only	21.128
type certificates	21.033
variable pitch propeller: production under type certificate only	21.129
<b>TETHERED BALLOONS AND KITES</b> — <i>See also Unmanned Aircraft and Rockets</i>	
Definitions	101.105
Mooring line marking	101.115
Operation outside of approved areas	101.110
Operation under cloud	101.120
Rapid deflation device required	101.130
To be lit at night	101.125
What to do if tethered balloon escapes	101.135
<b>TRANSITIONAL PROVISIONS</b>	
airworthiness directives	202.170
application for exemption from, or variation of, requirement of airworthiness directive	202.171
certificates of airworthiness	202.051
certificates of type approval	202.050
exemption from requirement of airworthiness directive	202.172
export certificate of airworthiness	202.052
<b>TRANSPORT CATEGORY</b>	
airworthiness standards	25.001
approvals under	
FAR Part 25	25.005
JAR-25	25.006
changes to	
FAR Part 25	25.003
JAR-25	25.004
incidental provisions	25.002

**TYPE CERTIFICATE AND TYPE ACCEPTANCE CERTIFICATE**

aircraft tests: production under type certificate	21.127
applicable airworthiness standards	21.017
applicability	21.011
application for	21.015
under delegation option authorisation	21.253
availability of	21.049
changes requiring a new type certificate	21.019
changes in type design	
approval of minor changes	21.095
classification of	21.093
designation of applicable regulations	21.101
eligibility for approval	21.097
issue of approval of major changes	21.098
required changes	21.099
conformity, statement of	21.130
duration and suspension or cancellation	21.051
eligibility	21.013
engine tests: production under type certificate only	21.129
flight tests	21.035
imported aircraft certificated by NAA of recognised country	21.029A
imported aircraft not type certificated by NAA of recognised country	21.029
inspection and tests	21.033
instructions relating to airworthiness limitations	21.050
instrument calibration and correction report – flight tests	21.039
intermediate category aircraft	21.026
under delegation option authorisation	21.257
issue of	21.013A
issue of type acceptance certificate	21.029B
location of manufacturing facilities	21.043
meaning of	21.041
normal, utility, acrobatic, commuter and transport category aircraft; manned free balloons; special classes of aircraft; aircraft engines; propellers	21.021
pilot for flight test	21.037
primary category aircraft	21.024
production under	21.123
production inspection system: Materials Review Board	21.125
provisional amendment	21.085
provisional certificates of airworthiness corresponding with provisional amendments	21.225
recognised foreign countries	21.012
recognition foreign certification	21.014
records to be kept by manufacturer	21.130A
refusal to issue type acceptance certificate	21.029C
restricted category aircraft	21.025
special standards and other conditions	21.016
statement of conformity	21.053
transferability of	21.047
type design—meaning	21.031
surplus aircraft of armed forces	21.027
variable pitch propeller tests: production under type certificate only	21.129
See also — <i>Provisional Type Certificates; Supplemental Type Certificates</i>	
<b>TYPE DESIGN</b>	
meaning	21.031

**UUU**

**UAVs — see also Unmanned Aircraft and Rockets**

Certification of UAV controllers	
application for certification	101.290
cancellation	101.320
cancellation at request of holder	101.325
certification	101.305
conditions on certification	101.300
eligibility for certification	101.295
how long controller’s certification remains in force	101.310
notice to show cause	101.315
Certification as UAV operator	
application for certification	101.330
cancellation	101.365
cancellation at request of holder	101.370
certification	101.345
conditions on certification	101.340
eligibility for certification	101.335
how long controller’s certification remains in force	101.350
notice to show cause	101.360
not transferable	101.355
Definitions	101.360
Large UAVs	
application of s 20AB of the Act	101.265
maintenance requirements	101.260
requirement for certificate	101.255
requirement for operator’s certificate	101.270
Not to be operated over populous area	101.280
Operation near people	101.245
Use of radiotelephone	
Where small UAVs may be operated	101.250
<b>ULTRALIGHT AEROPLANES</b>	
CAO 95.55 aeroplanes: exemption	200.014
single-place, privately built: exemption	200.002
<b>UNMANNED AIRCRAFT AND ROCKETS — Preliminary</b>	<b>Part 101</b>
<i>See also Tethered balloons and kites, Unmanned Free Balloons, UAVs, Model Aircraft, Rockets, Firework displays</i>	
Applicability of this Part	101.005
Application of registration and marking requirements	101.015
Application to rocket powered unmanned aircraft	101.010
Approval of areas of operation	101.030
Conditions imposed by CASA or another authority	101.045
Dropping or discharging things	101.090
Exemptions	101.040
Exemption from certain provisions of CAR 1998	101.020
General prohibition of unsafe operation	101.050, 101.055
Make-up of this Part	101.000
Maximum operating height	101.085
Meaning of <i>populous area</i>	101.025
Operation in controlled airspace	101.070
Operation in prohibited or restricted areas	101.065
Operation near aerodromes	101.075
Requirements to give information to CASA	101.035
Weather and day limitations	101.095

**UNMANNED FREE BALLOONS** — *See also Unmanned Aircraft and Rockets*

Definitions	101.145, 101.150
Direction by ATC to end flight in certain circumstances	101.230
Heavy balloons	
lighting by night	101.205
marking by day	101.200
Light balloons that may be released outside approved areas	101.160
Marking - general	101.195
Medium and heavy balloons	
ending flight and recovery	101.225
equipment that must be carried	101.185
flight reporting	101.220
how payload must be supported	101.180
lighting	101.190
not to be flown low	101.170
obligation to stay in communication with ATC	101.210
