

# Summary of consultation

## Extension of ATSO and CAO 101.55 references in the Part 21 MOS

July 2017

### Introduction

CASA published CD 1606CS —Extension of ATSO and CAO 101.55 references in the Part 21 MOS—on the CASA website from 12-26 May 2017. The proposed amendment was a minor machinery change to extend by 6 months the incorporation by reference of the Australian Technical Standard Orders (ATSO) and Civil Aviation Order (CAO) 101.55.

### Respondents

There were no respondents to this Consultation Draft.

### Key feedback and policy changes

No policy changes were made as a result of consultation.

### Notice of final rulemaking

*Part 21 Manual of Standards Amendment Instrument 2017 (No. 1)* was made on 30 May 2017 and commenced on 31 May 2017. CASA informed industry of the instrument being made by notification to the consultation and rulemaking mailing list.

### Future direction

CASA intends to transfer the requirements currently contained in the ATSO and CAO 101.55 into the Part 21 MOS before the extended 30 November 2017 deadline. Those amendments will be consulted as required under Subpart 11.J of the *Civil Aviation Safety Regulations 1998*.
