## Purpose of this form

Use this form to apply for an assessment to **convert** your overseas civil flight crew qualifications to an Australian Flight Crew Licence.

## Who is this form for?

This form is for the holders of an overseas civil flight crew qualification wanting to apply for a conversion to an Australian Flight Crew Licence. For Private Pilot Licence (PPL) conversions, only this form is required. For licence conversions other than a PPL, this form is **the initial step** in the conversion process. After assessment of your application, CASA will issue a letter to explain what additional theory examinations, flight tests or other requirements must be completed before receiving your Australian Flight Crew Licence.

After **successful completion of these requirements**, you must then **complete the second step** (submit [Flight Crew Licence on basis of overseas civil qualifications Part 2 \[61-4B\]](#)) before the conversion can be finalised.

## Information needed to complete this form

**Certified/notarised copies of documents must be submitted with this application.** Certification of documents can only be made by a Notary Public or a CASA DAME in your home country.

Alternatively, an Australian official at any **Australian Embassy or High Commission** can certify your documents as certified copies of the original documents. If you are in Australia, your documents can be certified by any of the persons identified by the Australian Attorney-General Department as authorised witnesses.

You are required to hold at least a current **ICAO level 4 Aviation English Language Proficiency (AELP)** assessment, or have the ELP level 4, 5 or 6 annotated on your overseas flight crew licence.

CASA must ensure an applicant is a **fit and proper person** before issuing a permission and cannot finalise your application unless notified you have completed a background security check and it is not adverse or qualified. An Australian Flight Crew Licence cannot be

issued until you have been issued with an ASIC or AVID. For security requirements associated with the issue of this licence please refer to [ASIC and AVID](#).

You must provide the Civil Aviation Authority, in the country of licence issue, with the **authority they require to release** your information to CASA. We will contact the relevant authority to verify your licence. Verification reports received from a national aviation authority are valid for 6 months from the date the report was issued.

CASA cannot recognise qualifications where the pilot only holds an FAA Temporary Airman Certificate. The applicant must hold the flight crew licence issued by the FAA before we can process the conversion application.

## Aviation Reference Number (ARN)

An ARN is required to complete this form. If you do not have an ARN, [apply now](#).

## Contact details

It is important the contact details on the ARN profile are current. CASA uses these contact details when processing this application.

If your address, contact or other details have changed, you must update them online using [changing your details](#) prior to lodging this form.

Failure to provide up to date contact details to CASA could result in additional fees being charged under the *Civil Aviation (Fees) Regulations 1995* and may constitute a criminal offence.

## For more information

Go to the [CASA website](#) or [contact us](#).
