

AUSTRALIA

SUPPLEMENTAL TYPE CERTIFICATE

No. 52-7

HOLDER: REX AVIATION

This certifies that approval has been granted in accordance with regulation 40 of the Air Navigation Regulations for the design of a modification to Cessna 441 aircraft specified in accordance with Aeronautical Engineers Australia Engineering Order EO.2039/1 issue 4, for the installation of a large cabin door.

This further certifies that the design conforms with the requirements to Air Navigation Orders Section 101.22 issue 4 up to and including amendment No. 72, and Part 23 of Federal Aviation Regulations, up to and including amendment 23-31 when operating in accordance with the specifications of Supplemental Type Data Sheet No. 52-7.

Any Cessna 441 aircraft modified in accordance with this Supplemental Type Certificate shall be redesignated 441/A1.
