VIC 3844, AUSTRALIA

Certifies that the change in the type design for the following product with the limitations and conditions as specified herein meets the airworthiness requirements of Civil Aviation Order 101.17 Issue 2 and Civil Aviation Order 101.22 issue 4 including the requirements of FAA Regulations Part 23 effective at 23 November 1987 when modified and operated in accordance with the specifications and limitations of Supplemental Type Certificate Data Sheet Number 83-4

Original Product: Referenced TC Number: US FAA 2A8
Make: Piper
Model: PA-25-235

Description of Type Design Change: Modification to Piper Model PA25-235 aircraft is specified in Gippsland Aeronautics Engineering Release GA200-0001 and all engineering documents specified therein. This design encompasses an all metal wing structure, side by side seating for two occupants, and other changes which are detailed in the Supplemental Type Certificate Data Sheet number 83-4. A Piper PA-25-235 aircraft modified in accordance with the above design shall be known as a Piper PA-25-235/A9.

Limitations and Conditions: This approval should not be extended to other aircraft of this model on which previously approved modifications are incorporated unless it is determined by the installer that the interrelationship between this modification and any of those previously approved modifications will produce no adverse effect upon the airworthiness of that aircraft.

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission,

This certificate and the supporting data which is the basis for approval shall remain in effect until suspended, cancelled or a termination date is otherwise established by the Civil Aviation Safety Authority.

For additional limitations and conditions refer to Supplemental Type Certificate Data Sheet 83-4
