Aeronautical Engineers Australia
30-38 Taranaki Road,
Edinburgh, SA 5111

certifies that the change in the type design for the following product when installed in accordance with the limitations and conditions specified herein meets the airworthiness requirements of 14 CFR Part 23 of the Federal Aviation Regulations as amended by Amendments 23-1 through 23-9 and 23-11 with the exceptions as specified in the FAA type certificate, A24CE Issue 99, dated 3 December 2009.

Original Product:	Type Acceptance Certificate Number:	A41
	Referenced TC Number (if applicable):	FAA A24CE
	Make:	Hawker Beechcraft B200
	Model:	B200C

Description of Type Design Change: Stretchers and Stretcher Loading Device (SLD) in accordance with AV15500.001/30 Issue 4 Master Document List - SLD 320 Installation, dated 1 September 2011 or later approved issue.

Limitations and Conditions:

Prior to incorporating this design change, the installer shall establish that the interrelationship between this change and any other modifications incorporated into the aircraft will not adversely affect the airworthiness of the modified aircraft.

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until suspended, cancelled or a termination date is otherwise established by the Civil Aviation Safety Authority.

Date of application:	2 February 2010
Date of issuance:	27 September 2011

This certificate is issued pursuant to Regulation 21.113A of the Civil Aviation Safety Regulations.

David Villiers
Delegate of the Authority

This certificate may be transferred in accordance with CAR (1998) 21.47.
