

Supplemental Type Certificate

Number: STC SVA572

This certificate, issued to

Aerotech Australia Pty Ltd
PO Box 36313, Winnellie
NT 0821, Australia

certifies that the change in the type design for the following product, with the conditions and limitations as specified herein, meets the airworthiness requirements of FAR 23 Amendment 28.

Original Product Reference

Type Acceptance Certificate Number: A320
Referenced TC Number: FAA A37CE
Make: Textron Aviation Inc
Model: 208 and 208B

Description of Type Design Change: Modification of Textron Aviation Models 208 and 208B to install a replacement battery pack fitted into a metal box in accordance with C.W. Whitney Engineering Order EO-2513 Issue 7, or later approved issue.

Limitations and Conditions:

The following documents are required for operation and maintenance of the modified aircraft:

- (i) Approved Flight Manual Supplement C208-FMS-BATT-01 Rev 4 or later approved revision
- (ii) Approved Instructions for Continued Airworthiness C208-ICAS-BATT-01 Rev 4 or later approved revision

If fitted, the high altitude oxygen system is required to be deactivated.

Prior to incorporating this design change, the installer shall establish that the interrelationship between this change and any other modifications incorporated into the aircraft will not adversely affect the airworthiness of the modified aircraft.

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate shall remain in effect until suspended, cancelled or a termination date is otherwise established by the Civil Aviation Safety Authority.

Date of Application:

22 March 2016

Date of Issue:

28 March 2017

This certificate issued pursuant to Regulation 21.113A of the Civil Aviation safety Regulations 1998

William David

Delegate of the Authority
