**Civil Aviation Safety Authority**

## TYPE ACCEPTANCE CERTIFICATE

Number: A237

Pursuant to Regulation 21.29A of the Civil Aviation Safety Regulations 1998 this certifies acceptance of the CASA (Construcciones Aeronauticas, S.A) model C-212-CC & C-212-CD aeroplanes.

Aircraft of the type and models covered by this certificate are eligible for Australian certificates of airworthiness in the Transport category as applicable.

This certificate is valid until suspended or cancelled by the Civil Aviation Safety Authority. The basis of certification is as prescribed in Type Certificate Data Sheet No. A237 issued by the Civil Aviation Safety Authority - Australia.

No.: A237  
Revision No.: 0

Aircraft: C-212-CC  
C-212-CD

Date: 23 February 2007

## **TYPE ACCEPTANCE CERTIFICATE DATA SHEET**

This data sheet is part of Type Acceptance Certificate (TAC) No. A237 issue 0, which is issued under regulation 21.29A of the Civil Aviation Safety Regulations. It lists any conditions and/or limitations under which the TAC was issued to meet the requirements of CASA.

### **Certificate of Airworthiness Category:**

The CASA (Construcciones Aeronauticas,S.A.) C-212-CC & C-212-CD are eligible for a standard Certificate of Airworthiness (C of A) in the Transport category.

### **Eligible Serial Numbers:**

This TAC is applicable to all serial numbers listed on FAA TCDS A43EU.

### **Certification Basis:**

The basis of certification is as prescribed in Type Certificate data Sheet A43EU Issued by the Federal Aviation Administration of the United States of America (FAA).

### **Conditions and/or limitations:**

The following conditions and/or limitations are imposed under sub-regulation 21.29b(1):

1. For issue of an Australian C of A the aircraft must have been issued with an export C of A signed by a representative of DGAC Spain or EASA containing the following statement (or words to the same effect) in English: "The aircraft covered by this certificate has been examined, tested and found to comply with US Type Certificate A43EU and is in a safe condition for operation".
2. Or the aircraft has been issued with a valid Airworthiness Certificate in the Transport category by the FAA.
