## TYPE ACCEPTANCE CERTIFICATE DATA SHEET

This data sheet is part of Type Acceptance Certificate (TAC) A341, which is issued under the *Civil Aviation Safety Regulations 1998* (CASRs) 21.029A and 21.029B(2). It lists any conditions and/or limitations under which the TAC was issued to meet the requirements of CASA.

**Certification Basis:** The basis of certification is as prescribed in Type Certificate Data Sheet (TCDS) A16WE issued by the Federal Aviation Administration (FAA) of the United States of America.

**Certificate of Airworthiness Category:** An aircraft of the type and model identified by this certificate is eligible for an Australian certificate of airworthiness in the transport category.

**Conditions and/or Limitations:** The following conditions and limitations are imposed under CASR 21.029B(2)

1. The Boeing Company 737-3H4 model aeroplane modified by FAA Supplemental Type Certificate (STC) ST04050NY "Installation of the Coulson Aerial Firefighter Tanker Modification to Boeing Model 737-300 series aircraft" is limited to operating in the Tanker Configuration in accordance with AFMS CAD-737.3-901-137 dated 09 November 2018 or later FAA approved revision.
