

ANNEX A TO AC 1-02 V3.1

Checklist of headings

The list of headings in this annex can be used as a checklist to ensure each subject is addressed in an operator's own operations manual or exposition. The regulations are referenced against the headings to assist with compliance.

The recommended structure for the operations manual or exposition consists of volumes and chapters. If choosing to follow this structure, operators may need to add extra sections to ensure compliance for their particular operations.

Annex B provides compliance matrix templates for Parts 91, 119, 121, 133, 135 and 138 of CASR. Operators may use the compliance matrices to record sections of their operations manual or exposition against the regulations.

Note that this checklist is also applied to the CASR flight operations sample exposition, available on the [CASA website](#).
