| 1. You're flying your drone and a person walking their dog is heading towards the path of your drone. You need to make sure:
c. that your drone is at least 30 metres away from them. | Remember: don't be a space invader! |
| 2. You must not fly your drone higher than 120 metres above ground level. | Remember to stay low! |
| 3. Which of these is true?
a. You must be able to see your drone with your own eyes at all times. | You must keep your drone within your visual line-of-sight. |
| 4. You are planning a safe place to fly your drone. Which of these is suitable?
d. none of the above. | Remember to steer clear: you must not fly over or above people. Avoid areas with lots of people. |
| 5. Why should you not fly near police, firefighters or other emergency operations?
b. You will get in the way and cause problems for emergency crews. | Remember to keep your distance. |
| 6. You must not fly when it is:
a. dark or foggy | Remember to call it a day! |
| 7. If you are flying your drone and an aircraft is nearby you should:
a. land safely as quickly as you can | Remember to fly away, don't delay! |
| 8. Fill in the gaps using the correct words: Fly your drone safely to avoid creating a hazard . | That's right, don't be a hazard! |
| 9. As you get more skilled in flying a drone you can fly more than one drone at a time.
False | Flying more than one drone is too much to handle. |
| 10. Match the messages with the correct rules
Stay low – Don't fly higher than 120 m
Steer clear – Don't fly above people or areas with lots of people
Don't be a space invader – Keep your drone at least 30 m from other people
Keep your distance – Don't fly near emergency operations | |

A score of at least 8/10 earns you a Know Your Drone safety quiz certificate! If you scored less than 8/10, review the Know Your Drone safety rules using some of the fun games and activities on CASA's Kid Zone website.
