

Print and cut out adventure cards; glue cards together so text faces the same way.

Oh no! You are running low on battery power.

**Return to base to recharge.**

Good job! You steer your drone clear of an emergency operation.

**Have another turn.**

Good job! You put your binoculars away. You keep your drone in sight at all times.

**Move 3 spaces in any direction.**

Oh no! Fog rolls in.

**Miss a turn while you wait for the weather to clear.**

Oh no! You briefly fly into a no drone zone.

**Miss a turn.**

Good job! You plan your drone mission using a drone safety app to check for no drone zones.

**Have another turn.**

Good job! You use a drone safety app to plan your mission.

**Move 4 spaces in any direction.**

Good job! You avoid flying too close to an oncoming jogger.

**Move to a token space of your choice and collect a token.**

Oh no! You take control of your friend's drone while flying your own. Not a good idea!

**Miss a turn.**

Good job! You keep your drone in sight at all times.

**Move to the nearest free token space to collect a token.**

Oh no! You fly your drone at night. Busted!

**Move back 3 spaces.**

Good job! A helicopter flies nearby. You land immediately.

**Move 4 spaces in any direction.**

You forget to check your propellers before take-off.

Oh no! Mechanical trouble!

**Return to base for repairs. Lose a token, if you have one.**

Good job! You stick to flying your drone no higher than the maximum height of 120 m above the ground.

**Move to any free token space and collect a token.**

Good job! You fly your drone making sure you are not a hazard to others.

**Move 5 spaces in any direction.**

Good job! You have a spare battery pack. Excellent planning!

**Keep this card in case you run out of battery power to avoid returning to base.**

Good job! A sports game starts at the oval where you are flying. You land immediately.

**Move 3 spaces in any direction.**

Oh no! You take out your binoculars so you can still see your drone. That's not allowed!

**Miss a turn.**

Oh no! You fly your drone over a crowded beach.

**Go back 2 spaces.**

Good job! You make sure you fly your drone 5.5 km from an airport with a control tower.

**Move 3 spaces in any direction.**
