Instrument number CASA OAR 053/18

I, ANDREW MELVIN SPARROW, Branch Manager, Air Navigation, Airspace & Aerodromes, National Operations & Standards Division, a delegate of CASA, make this instrument under regulations 6 and 9 of the Airspace Regulations 2007 (AsR 2007).

[Signed A. Sparrow]
Andrew Sparrow
Branch Manager, Air Navigation, Airspace & Aerodromes
National Operations & Standards Division

25 October 2018

CASA OAR 053/18 – Designation of Prohibited, Restricted and Danger Areas – Declaration and Determination (Permanent PRDs) Instrument 2018

1 Name
This instrument is CASA OAR 053/18 – Designation of Prohibited, Restricted and Danger Areas – Declaration and Determination (Permanent PRDs) Instrument 2018.

2 Duration
This instrument:
(a) commences on 8 November 2018; and
(b) ceases to have effect only if the instrument is:
   (i) repealed; or
   (ii) amended, and then only in accordance with the amendment.

Note The declarations only take effect when they are published in the AIP Designated Airspace Handbook on 8 November 2018.

3 Repeal
Instrument CASA OAR 029/18 is repealed.

4 Declaration — designating prohibited, restricted and danger areas
I declare the areas of Australian territory described in a Schedule listed in the following table (the Table) to be the areas mentioned in the Table for the Schedule.

<table>
<thead>
<tr>
<th>Schedule</th>
<th>Areas</th>
</tr>
</thead>
<tbody>
<tr>
<td>Schedule 1A</td>
<td>Prohibited areas</td>
</tr>
<tr>
<td>Schedule 1</td>
<td>Restricted areas</td>
</tr>
<tr>
<td>Schedule 2</td>
<td>Danger areas</td>
</tr>
</tbody>
</table>
Note Under subregulation 6 (2) of AsR 2007, CASA must not declare an area to be a prohibited area unless, in the opinion of CASA, it is necessary for reasons of military necessity to prohibit the flight of aircraft over the area.

Under subregulation 6 (3) of AsR 2007 (as amended), CASA must not declare an area to be a restricted area unless, in the opinion of CASA, it is necessary in the interests of public safety (including the safety of aircraft in flight), the protection of the environment, or security to restrict the flight of aircraft over the area to aircraft flown in accordance with specified conditions.

Under subregulation 6 (4) of AsR 2007, CASA must not declare an area to be a danger area unless, in the opinion of CASA, there exists within or over the area an activity that is a potential danger to aircraft flying over the area.

5 Approvals and conditions for restricted areas

An aircraft may only be flown in the airspace of a restricted area if the pilot in command has approval for the flight from the Controlling Authority mentioned in Schedule 1 for the restricted area.

Note The Controlling Authority may act through a delegate. The pilot in command must comply with any conditions of the Controlling Authority’s approval.

6 Activation and deactivation for restricted and danger areas

(1) A prohibited area, a restricted area or a danger area described in Schedule 1A, Schedule 1 or Schedule 2, or a specified part of such a prohibited, restricted or danger area (a relevant area), is activated in accordance with the hours of activity statement in the Schedule for the relevant area or the specified part of the area.

Note Activation times specified are in UTC unless otherwise stated.

(2) For section 4, a relevant area activated in accordance with an hours of activity statement that is a NOTAM (an activating NOTAM) remains active until the finish time specified in the activating NOTAM (specified finish time), unless the Controlling Authority or Contact deactivates the area earlier than the specified finish time using voice communication to a receiving air traffic control (ATC) authority (early deactivation).

Note Activation times specified in a NOTAM are in UTC unless otherwise indicated.

(3) Early deactivation may only be carried out if the activity for which the area was activated has ceased.

(4) If early deactivation under subsection (2) occurs within the 60 minutes before the specified finish time, an amending NOTAM is not required.

(5) The period of activation of a relevant area activated by NOTAM may not be extended by voice communication past the finish time specified in the activating NOTAM.

Note 1 For an extension to the specified finish time, an amending NOTAM is required.

Note 2 A pro forma for an activating NOTAM follows:

Reference/year NOTAMN
A) [Insert details]
B) [Insert start time specified in UTC]
C) [Insert finish time specified in UTC]
D) [Insert periods of activity details]
E) [Insert details, including
Details of Controlling Authority (for restricted area only)
Details of Contact
the following statement: “Area may be subject to early deactivations as per AIP ENR [insert current reference] Check status with [insert details of ATC authority].”
until AIP ENR 1.4-12 paragraph 5.3.6 is published, the following statement:
“Access to a PRD area may be available if the activity for which the area was
activated has ceased (early deactivation). Pilots should check the status of the area
with the ATC authority mentioned in the activation NOTAM.”

F) [Insert lower vertical limit]
G) [Insert upper vertical limit].

7 Determination that ATS are at variance with Annex 11
(1) This section applies for a restricted area or a danger area described in
Schedule 1 or Schedule 2 (declared areas).
(2) In accordance with Annex 11 to the Chicago Convention, I determine that the
air traffic services (ATS) to be provided for the airspace of a declared area are
services that are at variance with the ATS that would otherwise be provided for
that airspace in accordance with the Annex, only when the variance for the area
is published in the AIP or a NOTAM.

8 Acronym legend and guidance about likelihood of approvals
(1) Acronyms and abbreviations used in Schedule 1 and Schedule 2 have the
meaning given to them in Schedule 1AA, Acronyms & RA Status Legend,
under the heading Acronym Legend.
(2) The following other abbreviations used in Schedule 1 and Schedule 2 have the
meanings given to them as follows:
   AH means after hours.
   D means daily.
   H24 means continuously.
   E means weekends (namely Saturday and Sunday).
   EXPH means excluding public holidays.
   HDS means hours of daylight saving.
   HJ means from sunrise to sunset.
   HN means from sunset to sunrise.
   JO means Monday to Friday, except Public Holidays.
   JF means Saturday, Sunday and Public holidays.
   W means Monday to Friday.
   WS means Monday to Saturday.
   Z means universal coordinated time.
   L means local time.
   OT means other times.
(3) The information in Schedule 1AA, Acronyms & RA Status Legend, other than
that under the heading Acronym Legend, is for guidance only.
(4) In particular, the references to the Restricted Areas Status Legend (RA Status
Legend) provide, on the basis of usual safety considerations, a guideline only as
to the likelihood of an aircraft being approved to fly in the airspace of a
restricted area.
(5) Each decision of the relevant Controlling Authority to approve or not approve
an aircraft to fly in the airspace of a restricted area is to be taken in accordance
with the requirements and limitations imposed under section 5 and Schedule 1
for the area.
SCHEDULE 1AA – ACRONYMS & RA STATUS LEGEND

AIRSPACE NAME
Airspace is named according to the general commonly known geographic region, eg. R237 WOOMERA. Where a more specific name is required, that name will be placed after the regional name in brackets, eg. R736 TOWNSVILLE (STAR), where “Star” is the name of a property in that region.

PRD CONTACT DETAILS
Refer ERSA for all PRD contact phone numbers.

Conditional RA (Restricted Area) Status
In order to assist with shared use of airspace, all restricted areas have been allocated an “RA Status”. This status will give an indication as to the likelihood of obtaining a clearance to fly through restricted airspace. NOTAMs may be issued to indicate changes to the RA Status; which should be checked prior to flight planning.

RA STATUS LEGEND:

Conditional RA 1: Pilots may flight plan through the Restricted Area and under normal circumstances expect a clearance from ATC.

Conditional RA 2: Pilots must not flight plan through the Restricted Area unless on a route specified in ERSA GEN FPR or under agreement with the Department of Defence, however a clearance from ATC is not assured. Other tracking may be offered through the Restricted Area on a tactical basis.

Conditional RA 3: Pilots must not flight plan through the Restricted Area and clearances will not be available.
SCHEDULE 1A – PROHIBITED AREAS

Note  There are no Prohibited Areas.
SCHEDULE 1 – RESTRICTED AREAS

YMMM/R122 NORTH WEST CAPE
CONDITIONAL STATUS: RA3
